**33% FASTER**  
SPEED & INCLINE CHANGES

### RAPID SYNC MOTOR ADVANTAGE

Perfect for HIIT workouts, Johnson motors featuring Rapid Sync Technology respond to changes in speed and incline faster than traditional home treadmill drive systems. With no lags or delays between interval changes, you'll never fall out of step with your fast-paced workout class again.

### CONVENIENT QUICKDIAL CONTROLS

Make swift changes to speed and incline without breaking your stride with QuickDial controls. On the right, roll the dial forward to increase speed and roll it back to decrease speed. On the left, roll it forward to go up the hill and roll it back to come back down.

### SPRINT 8

#### MAXIMUM RESULTS, MINIMUM TIME

Integrated Sprint 8 high-intensity interval training burns fat and builds muscles in a way fad workouts can't, trimming body fat by up to 27% and significantly lowering bad cholesterol after just eight weeks of three 20-minute workouts per week. Individual results vary.
